

9/11 REALITY or COVERUP

The WORLD TRADE CENTER ATTACK on Tuesday, 11 September 2001—commonly known as 9/11—has been described by Dr. Judy Wood as *The New Hiroshima*.

The blame for the attacks fell onto Islamist suicide terrorists and was carried out by al-Qaeda. This may have been so . . . maybe.

However, what is “not so” is that the Towers’ destruction was caused by two airplanes crashing into those massive structures and it was the planes that brought the Towers down. The planes may have been part of the drama but they did not bring the Towers down. This understanding is blatantly false according to Dr. Wood. She describes the Towers’ destruction as a coverup and supports her decision in her 500 page masterpiece, *WHERE DID THE TOWERS GO?* The answer lies with “Evidence of Directed Free-energy Technology,” aka “DEW” — Directed Energy Weapons.

As Dr. Wood stated on the day of the attack . . .

My intellectual integrity prevents me from calling this a collapse. This is why I have chosen to stand up. My conscience leaves me no other choice.

Dr. Judy Wood’s bio: <https://www.amazon.com/stores/author/B0051F6EPM/about>

Dr. Judy D. Wood is a former professor of mechanical engineering with research interests in experimental stress analysis, structural mechanics, optical methods, deformation analysis, and the materials characterization of biomaterials and composite materials. She is a member of the Society for Experimental Mechanics (SEM), co-founded SEM’s Biological Systems and Materials Division, and has served on the SEM Composite Materials Technical Division. Dr. Wood received her B.S. (Civil Engineering, 1981) (Structural Engineering), M.S. Engineering Mechanics (Applied Physics), 1983), and Ph.D. (Materials Engineering Science, 1992).

Dr. Wood started to question the events of 9/11 on that same day when what she saw and heard on television was contradictory and appeared to violate the laws of physics. Since that day she has used her knowledge of engineering mechanics to prove that the collapse of the World Trade Center twin towers could not have happened as the American public was told. In this interview, Judy Wood talks about her book “Where Did the Towers Go?”

The book is the culmination of years of work and study that she’s been presenting on her website DrJudyWood.com about the destruction of the World Trade Center buildings on 9/11/01. She has been tracking and collecting many of the anomalies witnessed on that day and found evidence for a strange effect related to the work of John Hutchison called “The

Hutchison Effect.” We discuss how directed-energy weapons might have been involved in destroying the towers. Topics Discussed: forensics, interference energy, John Hutchison, hurricane Erin, tornados, towers turning to dust, anomalies, strange effects, physics, WTC1, WTC2, WTC3, WTC4, WTC5, WTC6, WTC7, NIST, classified technology, The Billiard Ball Example and more.

Dr. Wood’s book, *WHERE DID THE TOWERS GO* is an enlightening, valuable and eye-opening read. Her research and study of the WTC destruction is breathtaking. Her book is 500 pages and can be purchased from Amazon. It is spellbinding. If you want to know the truth of the Towers and what she describes as *The New Hiroshima*, go get it and read it from cover to cover. You’ll be glad you did. Dr. Wood tells you in pure science where the Towers actually went. The answer is shocking! As she states . . .

*The Towers didn’t burn up, nor did they slam to the ground.
They turned (mostly) to dust in mid air.*

If you choose not to purchase her book, Dr. Wood’s new website contains a mountain of evidence, photographs and other facts that explain what actually happened on 9/11—*The New Hiroshima!* <https://www.drjudywood.com>
